Professional Development Day

Soil Science and Sustainability Teacher Workshop

Sign up for this course for continuing education or graduate credit. This course will provide teachers materials and lesson plans on Soil, Science and Sustainability. There will be a career panel, tour at World Food Prize Hall of Laurates, tour of Corteva and many other activities for teachers to take back to the classroom. Lunch will be provided both days. Course is FREE, fees will apply only if you are taking the course for Professional Development Credits.
