

Congratulations to our “Caring for Our Watershed” Contest Winners

Caring for Our Watersheds is a program that empowers students to imagine, develop and create solutions in their local watersheds. The program promotes watershed awareness and stewardship, values student ideas and offers support when turning theoretical ideas into action.

Out of over 130 entries submitted this year, these ten teams placed in the top 10 and will equally share the \$12,000 in awards for themselves and their schools. Learn more about our top 10 entries below, listed in no particular order:

Project: Keeping Our Community Safe from Lead Contamination

Students: Jadiel Perez, Emeraude Katusevanako, Eh Thyu Say, Jasmin Garcia

School: John Marshall School of Engineering (Cleveland)
